

PROJECT FOR OPEN GOVERNMENT (P4OG)

Membership Application

I am tired of government bodies and officials and the persons who conduct business with them not complying with the law — from the U.S. Constitution down to local rules and regulations, and everything in between — and equally tired of them wasting taxpayer resources and circumventing voter approval. And I am concerned about this not only where I live and/or work but also throughout the state and even the country, and want to learn more about it from P4OG.

I want P4OG to pursue appropriate corrective measures for such non-compliance whenever the Board of Directors deems it possible and appropriate to do so. I like the idea of P4OG serving as a “watchdog” to ensure that unethical and illegal conduct by government and those doing business with government is exposed and that appropriate remedies are pursued.

I understand that my membership in P4OG will assist it in advocating for and pursuing my interests as described above but does not entitle me to vote for any member of the Board of Directors or to compel P4OG to pursue any particular policy, action, corrective measure, or remedy.

I further understand that my sole recourse in the event of disagreement with P4OG is to cancel my membership, which I may do at any time simply by notifying P4OG in writing.

With this in mind, I ask you consider my application for P4OG membership:
